BRIDGEPORT'S BUSY CASH STORE

SCIENTIFIC SPIRIT IN MODERN LIFE URGED.

San Francisco, Aug. 3.--In opening the convention here to-day of the American Association for the Advancement of Science, the President Dr. W. W. Campbell, director of science, delivered an address on "Science and Civilization."
 Dr. Campbell urged a fuller application of the scientific spirit to all phases of modern life.
 "The human race," he said, "needs above everything else the conviction

that the principles of science rule everywhere and that the problems of personal and national life are not solved as long as any important forces are ignored. The need is especially great in our American country."

More than 5,000 persons gathered to witness the funeral of Charles Becker. Police reserves were called out to quell scenes of disorder.

Frank Marocci, a driver of a New York mail truck, was fined \$50 for driving his car across the Manhattan bridge at 40 miles an hour.

WEDDING PARTY MADE ILL BY EATING CHICKEN

Winsted, Aug. 3.--Of the thirty-seven guests present at the marriage of Miss Henrietta Pratt, daughter of Mr. and Mrs. Bently Pratt of North Main street to Burton Hawley which took place at the summer home of the bride's parents in Tolland, Mass., Saturday afternoon, thirty-five were made sick with ptomaine poisoning as a result of eating chicken salad at the marriage feast. The two who escaped were Miss Jennie Wheeler of Winsted who had a dislike for that dish, and the bride-groom, who according to a relative, was "too nervous to eat." Even the bride did not escape falling ill while on the first stage of her honeymoon trip.

An elaborate dinner was prepared by Fred Winn, assistant chef at the Gilbert Home, and the salad was one of the most tempting dishes. The hot weather, it is believed, had a bad effect on the chicken. Six of the party required the services of a physician, but none of the attacks was serious, that of Mrs. John Winn being probably the most severe.

NEW MILFORD HAT CO. TRUSTEE

New Milford, Aug. 3.--T. C. Millard, president of the First National Bank of Danbury, was chosen trustee for the bankrupt New Milford Hat Company at a hearing held here yesterday before Referee in Bankruptcy C. E. Hoadley of New Haven. The trustee was required to file a bond of \$25,000. Another hearing will be held August 13 to decide whether the company will be disposed of at private or public sale.

The women are preparing for the duties of suffrage by reading the Paris fashion page, just as the men qualify for the same by their study of the baseball news.

NEW YORK YACHTS ON THE WAY TO NEWPORT

New London, Aug. 3.--In a 12 knot northeast wind and under lowering skies, the New York Yacht Club squadron started for Newport, R. I., this morning. The harbor start was signalled at 9 o'clock from the flagship Viking, and the visiting craft moved in stately procession out of the Thames to a point off Bartlett's Reef Light vessel where the regatta committee tug had established the starting line.

Towering high above even the 90-foot schooners were the top hamperers of the two American cup candidates, Vanitie and Resolute. These single sticklers, being special craft, were to race for prizes of their own and were not to compete for any of the squadron runs cups. They were started before the regular classes, so they might have all the sea room they needed. The cup yachts went away at 10 o'clock and the New York Yacht club fleet and large schooners and auxiliaries were sent over after the smaller divisions had been sent away in the wake of Vanitie and Resolute.

JOHNSON ACCEPTS HIS APPOINTMENT

John P. Elton, secretary of the reformatory commission, has received from Deputy Warden Charles H. Johnson of Sing Sing a letter formally accepting the position of superintendent of the state reformatory at Cheshire, to which he was elected on July 22.

The politicians are figuring how they can sweep the country in 1916, but not how they can sweep any corruption out of the dark corners in 1917.

ONE KILLED, THREE HURT AS HIGH-POWERED SHELL ACCIDENTALLY EXPLODES

Philadelphia, Aug. 3.--One man was killed and three were seriously injured in an explosion today in the experimental bombproof department of the United States arsenal in Frankford, this city.

The man killed was James Harkins, a civilian. The injured are M. Frusco and Arthur Lumlett, soldiers assigned to the ordnance department, and George Brown, a civilian.

The two soldiers are in a critical condition. Brown is not seriously hurt.

It is understood that experiments were being made with a high power explosive shell at the time of the explosion. The army officer in charge of the department is Captain A. C. Wilhelm, who is about to resign his commission in the army to take charge of a private arms manufacturing plant near this city.

An investigation as to the cause of the accident is being made.

After ridiculing his wife's subversive to styles, the modern American proceeds to put on a high starched collar for a hot day's dork down town.

BUGLER SCHWARTZ OF U. S. S. TENNESSEE IS HOME HERE ON VISIT

John Schwartz, ship's bugler on the U. S. battleship Tennessee and a former resident of this city, is in the city on 48 hours leave of absence. Bugler Schwartz has traveled 26,630 miles on the Tennessee since he was in this city last. The Tennessee carried the gold across the Atlantic with which to pay passage home for the thousands of Americans stranded in Europe when the great war broke out. Later the Tennessee went to Turkey to assist American missionaries. Bugler Schwartz was a former member of the Coast Artillery here. His brother, Ralph Schwartz, is at present a bugler in the 11th company, Connecticut Coast Artillery corps.

WEATHER FORECAST

New Haven, Aug. 3.--Forecast: Stoney and rainy weather tonight and Wednesday.
 Connecticut: showers tonight and probably Wednesday; strong northeast winds.

The western disturbance has moved northeastward during the last 24 hours and is now central over Illinois. It is now a well defined storm area and has increased in extent and energy. It is causing cloudy, and rainy weather from the Mississippi valley eastward to the coast. The southern disturbance has decreased in energy during the last 24 hours and is now central over South Carolina. The temperature is lower in northern districts this morning. A minimum temperature of 24 degrees is reported from the White River, Canada.

German is reported to be taking control of the cotton industry.
